

# Engagement Manager

Enables anytime, anywhere mobile scheduling

NICE CXone Engagement Manager provides agents with anytime, anywhere mobile scheduling to keep them in-the-know and engaged. Agents want instant, real-time access to everything—including their work schedules. Engagement Manager extends your Workforce Management with a mobile app for schedule notifications and shift trades, improving agent visibility and flexibility. Now whether they're at their desks or on-the-go, agents can view their schedules and take action—all with the tap of a smartphone. As a native component of the CXone unified platform, administration is seamless across contact center applications.

## MORE FLEXIBILITY, HAPPIER AGENTS

Boost agent engagement with anytime, anywhere access to self-scheduling.

- Give agents what they want. From shopping to streaming, your agents “have an app for that”—give them an app to manage their work schedules too.
- Improve visibility. Give agents instant schedule visibility, right from their pockets.
- Increase flexibility. Mobile access to initiate shift trades gives agents more flexibility to juggle work and home activities, while still ensuring proper coverage.

## REAL-TIME REACHABILITY, MORE ACCOUNTABLE WORKFORCE

Ensure agents know where they need to be, when they need to be there—no matter if they're in the office or off-shift.

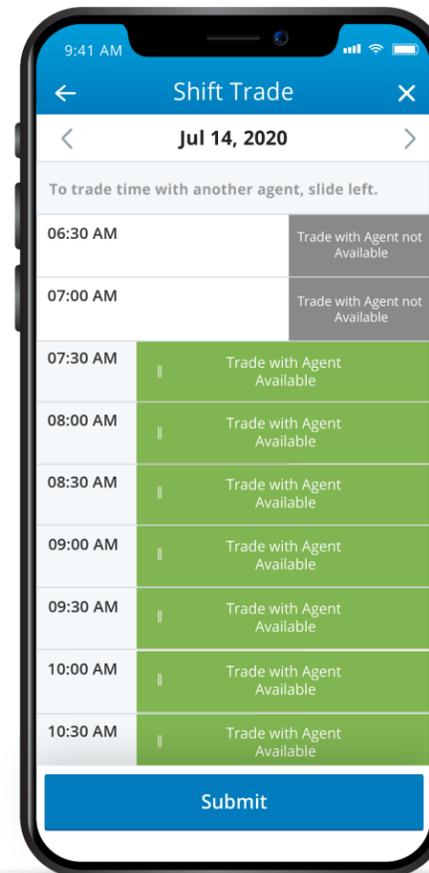

- Streamline communication. Keep agents in the know and cut down on manual outreach when schedules change with automated mobile notifications.
- Foster accountability. Throw tardy and missed-shift excuses out the window by making sure agents always know when they're scheduled, right from their mobile devices.
- Better adherence. See your schedule adherence climb and your SLAs skyrocket as a result of agents having better schedule visibility.

## BENEFITS

- Improve agent engagement
- Boost schedule adherence and SLAs
- Ensure schedule accountability
- Eliminate manual communication when schedules change

## KEY FEATURES

- View schedules and initiate shift trades
- Real-time mobile notification of schedule changes
- Unified administration in the CXone platform

Agents can initiate shift trades from an intuitive mobile app.

## About NICE
